

LYDDITE SHELLS DID EXECUTION

Boers' Position Victoriously Assaulted with Famous Projectiles Today.

MANY SHRAPNEL FIRED

Especially Attention Paid to the Burgher Guns That Had Been Active.

Boers Hold a Position Half Way on the Direct Line Between Renesberg and Colesberg—They Shell Porter's Hill Without Effect—The Losses of the British at Potgieter's Drift—The British Repulse the Enemy in Various Engagements.

London, Feb. 8.—[Special Cablegram]—A Renesberg dispatch dated today says: "The Boers position was victoriously shelled with Lyddite shells for an hour early this morning, eastward from opposite Slingfontein, and westward from Coles Kop, a fifteen pounder shrapnel gun paying especial attention to the sites of the Boers guns, which had been unusually active lately. The Boers hold a position half way on the direct road between Renesberg and Colesberg. They shelled Porter's Hill ineffectually yesterday."

London, Feb. 8.—[Special Cablegram]—General Buller has sent a list of his casualties in the fighting at Potgieter's Drift up to noon Tuesday. The list shows two officers killed and fifteen wounded. The losses in the rank and file in killed and wounded aggregate 216.

Boer Charge Fails.

London, Feb. 8.—[Special Cablegram]—A dispatch from Modder river, dated Feb. 6 says: "The Boers today tried to rush the British intrenchments, but were driven off. The British had no casualties. Gen. MacDonald holds off Kockoesburg Kopje but the sides are too steep to get up the field guns with which to begin an artillery attack on the positions that the Boers hold."

Capture Advance Guard.

Strekstrom, Feb. 6.—[Special Cablegram]—The Boers today captured a British patrol consisting of a sergeant and sixteen men of Brabant's Horse, which constitutes Gen. Gatacre's advance guard.

Boers are Repulsed.

Strekstrom, Feb. 8.—[Special Cablegram]—The Boer attack on Gen. Gatacre's forces on Bird river was a feeble one and was easily repulsed. The British pursued the retreating Boers.

No Damage to Briton.

Renesberg, Feb. 8.—[Special Cablegram]—The enemy facing Gen. French's forces here are active. They keep up a steady bombardment, but thus far have inflicted no damage.

Gen. Buller Strikes a Sling.

London, Feb. 8.—A special from Spearman's camp, dated Feb. 7, says: "Our further advance is at the moment prevented, as the Boers enfilade us from their position on Spion kop and Doorn kloof. Our casualties, although estimated at 250, are trifling, considering the great importance of the movement just concluded."

Gen. Buller has been checked in his third attempt to relieve Ladysmith and is now facing a large Boer army on two high hills, which blocks his further progress. While it is felt that the fact that the army has gained a foothold on the plateau north of the Tugela is a hopeful sign, many fear that Buller may find the road as difficult as either of the others by which he sought to reach the besieged town.

Telegrams of from 100 to 200 words from a dozen correspondents have been passed by the censor, who has apparently re-dated messages written Monday or Tuesday to Wednesday at 6 p. m.

From these it is clear that Gen. Buller up to Tuesday evening had taken one hill, had repulsed a Boer counter-attack, and was holding the position against an enfilading fire from Spion kop and Doorn kloof. His losses, as mentioned by one correspondent, are 250.

The only telegrams from Boer sources assert that one of Gen. Buller's attempts to seize the forts failed, but they admit that he has lodged forces on one kopje.

Light on Gen. Buller's operations ceases here, the war office not contributing any information.

The British columns are putting themselves in motion in all parts of the South African war field. A combined attack upon the Boers appears to be in progress. On the far western border Lord Methuen has begun a turning movement against the Boer

right, while Gen. MacDonald threatens the Boer flank, thus relieving the pressure on Lord Methuen's front.

Lord Roberts, who, according to an informant in close touch with the war office, is in the middle of the theater of war, has begun the march on Bloemfontein.

The Boers have taken the initiative against Gen. Gatacre, attacking two of his positions at Sterkstroom. It really looks as though the general forward movement so long talked of were in progress.

Three thousand more militia have been ordered to prepare for embarkation. The obsolete guns at the various coast defenses are being replaced with modern naval guns. The government is preparing a plan to be submitted to parliament for the conversion of the yeomanry, volunteers and militia into a well-organized and properly equipped army for home defense.

URGES BOERS' INDEPENDENCE.

John Redmond's Amendment Rejected by a Vote of 308 to 56.

London, Feb. 8.—The first business before the house of commons Wednesday was the consideration of the amendment to the address in reply to the queen's speech proposed by John Redmond, Irish nationalist member for Waterford City, leader of the newly united Irish nationalist party. This amendment asserts in effect that the time has come when the war in South Africa should be brought to a close on the basis of the recognition of the independence of the South African republic and the Orange Free State. At the conclusion of the debate the house rejected Mr. Redmond's amendment by a vote of 368 to 56.

London, Feb. 8.—Appropos of Advertiser's Hay presenting his credentials at Pretoria as United States consul to the Transvaal, the Fall Mail Gazette points out that Mr. Hay's appointment was a fine compliment to Great Britain. "The Gazette concludes as follows: 'This is true neutrality, and is convincing proof of the indifference of the United States to the pro-Boer agitation.'"

Four Million Receding, Relief.

Bombay, Feb. 8.—The famine is rapidly becoming worse. It threatens to eclipse the last disaster of this nature and to outrun the government's resources. Already 4,000,000 persons are receiving relief and a steady increase in this number is to be expected. Deaths from starvation are becoming frequent, especially in Rajputana. The population of the Western Decan is demoralized. Many panic-stricken at the outlook, are flocking to the relief works, although they are not yet destitute. The deaths in Bombay city Sunday numbered 408, the highest mortality on record.

For a Second Term.

Nashville, Tenn., Feb. 8.—It is learned that Gov. Beaton McMilla will stand for re-election as governor of Tennessee, abandoning the idea of running for the United States senate, to succeed Thomas B. Turley. This will leave the senatorial race to Congressman Edward W. Carmack of the Memphis district and Chief Justice David L. Snodgrass of the Tennessee Supreme court.

Tract Building Does Not Pay.

New York, Feb. 8.—Behind the appeal of the American Tract society for voluntary subscriptions of \$200,000 with which to liquidate a floating debt that is causing embarrassment is an admission by the officers that its twenty-two-story building on Nassau street does not pay. The rent has not paid the interest on a mortgage that covers the structure.

BUILD RACE TRACK NEAR BELOIT CITY

CHICAGO MEN GET AN OPTION ON A BIG FARM.

It is Intimated That Ed. Corrigan, the Famous Turfman, is Behind the Movement—Grounds Are Close to the Depot and Well Located for the Purpose.

Beloit, Feb. 8.—The Free Press announces that Chicago racing men have secured an option through a local business man, on the Patrick Hayes farm, located on the Rockton road immediately south of this city, for the purpose of building a fine track on the land.

The return of the days when Beloit was one of the racing centers of the west is a probability, as the gentlemen who have the project in hand are well known horsemen and have unlimited capital. Although no names are given out, it is hinted that Ed. Corrigan, the veteran turfman, is behind the movement.

The men have a thirty-day option on the land which calls for a price near \$10,000 for the 110 acres. They have personally inspected the farm, and declare it to be almost perfect for the purpose, and say the loan is the kind that will make an ideal track. They will build a regulation one mile track and will erect fine stands and stables.

The Chicago gentlemen are also much pleased with the location of Beloit and made a study of a map while here which showed how a big race meet here would draw from Janesville, Rockford, Freeport, Madison, Clinton, Evansville, Duluth, and many smaller towns. They consider it an ideal place and will give regular spring and fall meets. The grounds will be close to both passenger depots, and as all trains stop for the railway crossing, passengers can get off almost at the track gates.

"Business men generally," says the Free Press, "will welcome a race track to Beloit as it means many dollars to the city. A racing meet will attract hundreds of people here and they leave many dollars behind when they go."

Shot Dead by the Officer.

Anderson, Ind., Feb. 8.—A desperate fight between Joseph Richardson, an ex-convict, and Bert Cook, town marshal of Pendleton, took place in the center of that little city Wednesday evening. Cook attempted to serve a warrant for Richardson's arrest. The latter whipped out a revolver and began firing wildly at the officer. Marshal Cook returned the fire with deadly aim, putting three balls into the breast of his assailant before he was overcome. Richardson fell dead on the walk.

Real Business of the Meeting Began This Morning, and This Afternoon the Members Enjoyed a Pleasure Trip—Other News of the Badger State.

Green Bay, Feb. 8.—The members of the Wisconsin Editorial Association are gathering here in force. The first real business of the session began this morning. This afternoon the members visited Murphy's lumber mill and were taken on a special train to De Pere to visit the paper mill. On the return trip they stopped at the reformatory to inspect that institution and will eat supper with Supt. Heg.

The Editorial association held a short business session last night. Mayor Murphy delivered the address of welcome. All the officers of the editorial association are here. A telegram was received from ex-Gov. Hoard accepting an invitation to deliver an address tonight.

May Abandon the Carnival.

Milwaukee, Feb. 8.—The directors of the Milwaukee Carnival association last evening decided that if the business men did not come up with money to pay for the carnival by Feb. 15 they would abandon the big show. They need \$40,000 to run it, and after several weeks of solicitation they have gotten only about \$15,000. Neither the hotels and the brewers have contributed as liberally as was expected, and, in fact, there has been a general failure to "pony up" all around. The summer carnival, which has been given for two years, is the biggest thing of the sort Milwaukee ever had, attracting 50,000 to 75,000 strangers to the city, and the apathy of the business men about putting up money is inexplicable, especially as the \$100,000 for the democratic national convention has been raised without trouble.

May Meet at Milwaukee.

Madison, Wis., Feb. 8.—The session of the State Horticultural society opened with reading the letters from Secretary Sullivan of the Milwaukee Citizens' league and Mayor Rose extending a cordial invitation to the society to meet in Milwaukee in 1901. A GALE OF DEATH SWEEP ILLINOIS

CYCLONE DOES DAMAGE AND CAUSES LOSS OF LIFE.

Residences of Coal Miners in the Collinsville District Are Levelled and Destroyed by Fire, Man Being Cremated—St. Louis Also Feels the Blast.

Collinsville, Ill., Feb. 8.—[Special Telegram]—A cyclone passed a few miles northeast of here at four o'clock this morning. It is reported that many coal miners' houses were demolished and it is feared that there was heavy loss of life but news is hard to obtain as wires are all down.

Later reports say that many persons were injured. The wind blew with tremendous velocity and the cyclone covered a wide section. It came from the Northwest. The ruins of miners' dwellings caught fire and one person was fatally burned.

Reports of the damage done in the country, surrounding Collinsville continue to come in, but later advices are to the effect that while six people were injured, there was no loss of life except the man who was burned to death. One man is also reported to be missing.

TAYLOR PRESSED BY BOTH SIDES

The Governor of Kentucky Is Put Between Two Hot Fires.

NO DECISION AS YET

Republicans Split in the Discussion as to What His Policy Should Be.

One Element Advises Surrender While the Other Demands That He Stand Firm—Bradley and Breckenridge Both Furious Because He Paid Any Attention Whatever to the Louisville Agreement—Goebel's Funeral Is Held—Bradley Asks for Injunction.

Frankfort, Ky., Feb. 8.—[Special Telegram]—Governor Taylor has not yet decided upon his course, apparently, as up to 3 o'clock this afternoon he had made no announcement of his intentions.

Frankfort, Feb. 8.—[Special Telegram]—Gov. Taylor began another conference with his advisors this morning. He seemed to be on the verge of a decision one way or the other. He received word from the Democratic leaders this morning that they must have an answer before noon. The conference ended a nine o'clock and Gov. Taylor began receiving callers. He seemed to be between two fires in his own party, one element being for an immediate surrender and the other clamoring for him to remain firm. Bradley and Breckenridge are both furious because Taylor has even considered the Louisville agreement.

Goebel's Funeral Held Today.

Frankfort, Ky., Feb. 8.—[Special Telegram]—The remains of Senator Goebel were laid at rest today in the presence of an immense concourse of people. Hundreds of strangers viewed the body as it laid in state in the Capitol hotel. At eleven o'clock the doors were closed against the throng and private services took place. The services were brief and simple.

Seek an Injunction.

Cincinnati, Feb. 8.—[Special Telegram]—Former Governor Bradley of Kentucky presented the injunction papers in the Kentucky gubernatorial contest, in the Federal court here today, representing Governor Taylor in the legal fight.

Judge Taft refused to accept the papers for filing, saying that if Mr. Bradley wished to file an injunction, he must notify the defendants and appear before him Monday, to which Mr. Bradley agreed.

Taylor Refuses to Yield.

Frankfort, Ky., Feb. 8.—After a conference with his attorneys and friends which lasted from 8 o'clock until 11:45 o'clock Wednesday night, Gov. Taylor announced that he had not made up his mind as to what he would do regarding the proposed agreement. The conference was held in the governor's private office, and the matter was evidently given the most careful consideration. It is evident that Gov. Taylor does not like the terms of the compromise and will not sign it as it is.

The conference was participated in by Gov. Taylor, Judge W. H. Yost, Attorney A. E. Wilson, Gen. D. W. Lindsay, Treasurer W. R. Day, Judge John W. Barr, Judge Stephen D. Sharp, ex-Treasurer George D. Long and W. H. Thatcher, assistant attorney-general, all leading republicans. None of these gentlemen would talk after the meeting, further than to say that Gov. Taylor has made no decision as to the compromise.

Gov. Taylor is especially anxious that the clause of the agreement relating to the repeal of the Goebel election law be made stronger. He wants positive assurance that the law will be repealed and another adopted which will give the republicans a fair chance at the elections. A conference has been arranged for Louisville Friday night, at which this matter will be carefully considered.

In view of this arrangement, an answer from Gov. Taylor cannot be looked for before Saturday or Monday. The general impression is growing that the governor will refuse to sign any compromise.

Louisville, Ky., Feb. 8.—At a largely attended meeting of the city and county republican committee, held in this city Wednesday night, the refusal of Gov. Taylor to sign the report of the peace conference was indorsed, and resolutions were adopted urging him to hold to the position in which the people of Kentucky had placed

KENOSHA COUNTY SUPERINTENDENT ON JANESVILLE CRITIC OF DANCING

(Milwaukee Journal.)

To the Editor of The Journal: The time, place and crowd being all right, dancing is an elevating and refining amusement. However, like every other amusement it may end in harm. From your interview with Mr. Ross of Janesville it seems that in Rock county there are many beautiful schoolma'ams. They are very numerous in Kenosha county, in fact, in all Wisconsin, since since the soil and climate are highly favorable to the best styles of female loveliness. The interview speaks of these schoolma'ams and their beaus driving ten miles to a dance. That's about the right distance for having a nice little visit with you best schoolma'am. At least, I so remember it. Furthermore we expect to find a beau wherever there is a "dear" of a schoolma'am. A good beau is quite handy to have around. Now given a beau, a schoolma'am, good music, and a waxed floor, much dancing, a late supper, and 4 o'clock in the morning are likely to follow. Mr. Ross admits that he knows how it is himself. Now Mr. Ross didn't you have a world of fun? Didn't your pulse beat faster than now? Don't you remember how your heart went pit-a-pat? And really, aren't you glad that no

grim superintendent shook his gaunt and bony finger at you? I know you to be genial and sociable and I am sure you would not do anyone the least harm. I've heard no complaints about dancing too much and at the wrong time. This fact surprises me when I think of the great number of Kenosha teachers who dearly love dancing and who dance so well. Now, if I should find out that any teacher was dancing at the wrong time, I'd most likely ask whether she had a good time, joke her a little about her escort—beau if you please—and then say that Friday or Saturday night dances are the best of all. I think she'd take the hint.

I am sure that the teachers of Kenosha county have not hurt themselves or their work by dancing. Many of the best do not dance, and others, equally good, do dance, using common sense at the same time.

Those of us who have reached the noon of life should remember its roseate moon. May our hearts be ever as full of sunshine as in the days when we were "young and gay."

WILLIAM GRIFFITH,
County Superintendent.
Wilmet, Wis., Feb. 5.

TWILIGHT CLUB'S MEETING

Will Be Held Next Monday Evening Instead of Tuesday

Members of the Twilight club will meet next Monday evening, February 12, instead of Tuesday evening, the 13th, at the Hotel Myers, at 6:45 o'clock. The subject for the evening's discussion will be "Imperialistic Aggression as Exemplified by the Boer-British War." T. S. Nolan will be the leader. Mr. Nolan has divided the topic as follows: 1. ROBERT WILLIAMS IS CALLED HOME

PIONEER RESIDENT PASSED AWAY THIS MORNING.

Mr. Williams Was in His Eighty-Fifth Year, and Had Seen Janesville Grow From a Small Village—He Worked at His Trade, That of a Blacksmith, for Many Years.

Robert Williams died at the home of his son Frank P. Williams, 260 South Bluff street, at 3:30 o'clock this morning, aged eighty-five years. Mr. Williams had not been in good health for some years past and for the past five months had not left his bed. He was a native of Swansea, Wales and was born in 1815. He came to New York when but ten years of age and to Janesville in the early 40's. He was one of the first settlers and was for many years engaged in the blacksmithing business and did much of the horseshoeing for the stage horses between Mineral Point and Milwaukee. He was also a veteran of the Mexican war.

He was three times married, his last wife being Mrs. Harriet Travis, to whom he was married in 1869, and who still survives him and is herself an invalid. Besides a widow he leaves two sons, Frank P. Williams and Charles Williams, all of this city.

The funeral will be held Friday afternoon at the house and the interment will be in Oak Hill cemetery.

Edgar J. Strong

Edgar J. Strong, eldest son of the late Elsie and Eliza Strong, formerly of this city, died January 29th in Chicago at the residence of Mrs. Carrie Alden, 219 North Oakley avenue, where his funeral was held January 31. He was buried in Forest Home cemetery. He was fifty-six years old and a veteran of the rebellion. He was unmarried and leaves one brother, Albert Strong, whose whereabouts are unknown. For the past eighteen years, with the exception of a short time spent at the Milwaukee Soldiers' Home, he has made his home with Mrs. Alden's family. He was almost totally blind and death must have come as a welcome.

"COONS" AT EMERALD GROVE

School Scholars Will Give a Minstrel Show To Raise Decoration Fund

The school in District No. 4, Bradford (Ransom district) is preparing for a rather novel entertainment on February 16, in the shape of a minstrel show, to be given by the "Coons" from the Cracker Jack plantation, South Carolina. The program, which consists of catchy coon songs and dialogues, promises to be very entertaining and amusing. These coons have been hired at a great expense, and as the proceeds are to go for school decoration, a large attendance is desired. Remember the time, place and admission—February 16, Ransom district school, ten cents admission.

CIGAR BOX MAKERS MEET

H. Gagan and George F. Kimball Attend Session at Milwaukee

The following appears in The Milwaukee Journal's "Man With the Hoe" column: The fact that the price of lumber has taken a balloon ascension without the prospects for the customary parachute descent in the near future was the cause of discussion and serious consideration upon the part of members of the Northwestern Cigar Box Manufacturers' association at the Hotel Blatz yesterday. Old-time lumbermen are scratching their hoary heads and trying to recall the period when "times" with the men of timber were so good; they say it's all right, but the men who are dependent upon the purchase of the product of the woods at moderate prices are not so jubilant. However, there isn't anything to do in the premises save to keep on buying the produce at the best current figures. Among the outside members of the cigar box makers' association who talked the thing over are these: Charles Kirmse, Sheboygan; H. Gagan, Janesville; W. Wilson, W. R. Carus, Minneapolis; W. H. Kurtz, Oshkosh, and G. F. Kimball, Janesville.

EASILY PROVEN.

There is Not the Slightest Necessity for Leaving Janesville to Look for Proof.

The experience given below by this well-known citizen of Janesville is easily proven. The proof he offers for his convictions can safely be left with the reader. It is a difficult matter to describe an aching back or any of the ills caused by disordered kidneys. How to cure the trouble is of much more importance, and the most exacting resident of Janesville cannot ask for any better authority on this point than that given by Veteran A. F. Lee, of 51 Sharon St., carpenter, who says:

For twenty years it troubled me a great deal, many days I could hardly keep at my work, and by rights should have staid at home and doctored. It was seldom that my back did not ache, and I have been completely laid up for three or four days at a stretch. When stooping or lifting sharp pains penetrated the kidneys, the sensations from these organs were too frequent and accompanied by pain. I used all kinds of remedies but never gave permanent relief. Outlined Doan's Kidney Pills at the People's Drug Co., I took them, and after the first three or four boxes a noticeable change was brought about. I improved steadily from then on and on completing the treatment I was in good condition and am now well.

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

LIBERAL AND PROGRESSIVE

Evansville people should be proud of the Baker Manufacturing Company. The concern is not only of benefit to the city but is run on lines that make it unique. A dispatch says:

"One year ago the Baker Manufacturing Company of this city surprised its employees by making them a present of 10 per cent. of what their previous earnings of 1898 had been, and stated that during the year 1899 the factory would be operated on the profit sharing plan, the employees receiving a percentage of the net profits."

"Last Saturday the percentage amounting to \$14,197.78 was distributed among the employees, the sum being over 60 per cent of the wages earned during the year 1899."

"The largest sum received by any one was \$498.45, which was paid to Supt. S. J. Baker. The average amount paid was \$245.79. When it is borne in mind that these sums are paid in addition to the regular wages it will be seen that the Baker Manufacturing company is giving its employees a large interest in the business. The profit sharing system will be continued."

BECKHAM SHOULD YIELD.

The people elected Taylor and the legislature elected Beckham. Which is greater, the people or the legislature? Civil war threatens in Kentucky unless one of the claimants of the governorship withdraws. Which should withdraw? The choice of the people or the choice of the legislature? It is admitted that Governor Taylor received a majority of the votes cast, and a partisan election board, controlled by the losing side gave him his certificate of election. Can law abiding, liberty and justice loving people uphold the action of a partisan legislature under these circumstances? Can a people be robbed and trampled upon regardless of law and right? Beckham should withdraw, and if he persists in a policy of political brigandage, he should feel what every other law breaker feels—the heavy hand of merited punishment.

Beloit Free Press—There should be no question as to who shall represent Wisconsin on the republican national committee for the next four years, provided he will accept the position. The next campaign will be long and a hard one and should be under the guidance of such tried and experienced men as Hon. Henry C. Payne. He has proved his abilities and worth in many political campaigns, both state and national, and if he will accept a re election, it should be given unanimously.

Hereafter Beloit officers will pay no attention to the state line, but will quell disturbances on the Illinois side when necessary. They have no police powers in Illinois, but there is nothing to prevent them from committing assault and battery in that state unless the battered party elects to prosecute.

Pat Crowe has been arrested at Chicago on the charge of train robbing. The police say Crowe is a "tough old bird," and that they have an exceedingly black case against him.

London, Kentucky, is a prohibition town. Perhaps this fact explains, in a degree, the story that the Blue Grass state legislature doesn't want to meet there.

Milwaukee is to have an automobile cab line, but the deal has not yet reached the go-to-court stage, so perhaps there is nothing to it after all.

Congressman Babcock has been honored with a re election to the chairmanship of the Republican National Congressional committee.

Duluth, Minn., has just elected a republican mayor. Six out of eight aldermen elect are also republicans.

AUTHOR AND SURGEON.

Conan Doyle, Who Has Gone to the Front in South Africa.

The departure for South Africa of Dr. A. Conan Doyle and the production of the dramatized version of his "Sherlock Holmes" revive interest in this quiet, solemn faced medical man who writes such stirring fiction. It is as a surgeon, and not as an author or detective, that Dr. Doyle has gone to the front. It has been suggested, however, that General Buller might use to more advantage the talents of the creator of Sherlock Holmes if he would make him his consulting strategist, thereby employing those wonderful deductive powers with which the greatest detective of fiction was blessed. Perhaps by looking at the steep side of a kopje the keen witted doctor might be able to tell the general just how many Boers were concealed behind it, the location of their batteries and the best way to rout the burghers.

The English home which Dr. Doyle has left to go to the war is a pretty

A. CONAN DOYLE.

and comfortable villa, where he has enjoyed life greatly since his success in the literary field. He is as far removed from civilization as is Kipling in his home at Rottingdean. He lives fully four miles from the nearest railroad—at Hindhead. It is one of the charming English residence towns free from most of the unpleasant features of city life, yet with urban advantages. Along the range of hills can be found the homes of some of England's most noted writers and scientists; past and present. Tennyson lived here; Professor Tyndall was also one of the Hastedmere colony, living next door to Dr. Doyle.

From his rear, or perhaps front, veranda—for the house seems to have a front where the rear should be—the owner can look directly down the valley to its foot, five miles away. Both sides contain thickly wooded groves divided by wide patches of heather, with here and there a cultivated field or a strip of pasture land. Six hundred feet above the sea, it is high enough to get the invigorating air of such altitudes, while from the English channel, but 20 miles away, comes the pleasant sea breeze.

SOCIETY'S NEW FAD.

The Cavy Becomes the Favorite Animal Pet. Society has found a new animal pet. It is the cavy. As an earnest that this fad is making progress it may be mentioned that in Chicago there has been organized the Cavy club, the members being enthusiastic owners of these queer looking pets. The cavy is really an evolution from the guinea pig, though the latter nickname possesses even less fitness than beauty. It is a native of South America, where it was a great favorite with the natives, who called it couy, and from this comes the Anglicized "cavy."

Several years ago a famous English fancier brought the first specimens into England and by clever breeding has succeeded in producing some very remarkable varieties.

Cavies were first introduced into this country and owe their present vogue

MRS. EDITH KINGMAN POYER.

to a woman, Mrs. Edith Kingman Poyer of Woodstock, Ill., who raises them by the thousands, including all known varieties.

As pets for children, cavies are really without a rival. They are gentle and, when accustomed to their surroundings, are playful and affectionate, their frisky antics and ever ready appetite especially endearing them to the little ones.

There are three distinct kinds of cavies—the English, Peruvian and Abyssinian. The English are the most widely distributed, being the original from which the more fancy Peruvian and Abyssinian were produced.

TAYLOR REFUSES TO YIELD.

him. Confidence was expressed in Gov. Taylor and all of his official acts were approved.

A sensational report afloat here is to the effect that a movement is on foot to have the Franklin county grand jury return indictments against President Milton H. Smith of the Louisville & Nashville railroad; Gen. Basil W. Duke, attorney for the company; Gov. W. S. Taylor and Col. John H. Whallen of this city, for conspiring to precipitate a revolution in Kentucky. Those supposed to be at the head of the movement decline to discuss the report.

Thousands Attend Goebel's Funeral. Frankfort, Ky., Feb. 8.—Thousands of persons have already reached the state capital to attend the funeral of William Goebel. Friends and admirers of the dead leader have been coming on trains and in private conveyances from all parts of the state, and the indications are that at least 25,000 strangers are in the city. The remains reached here at noon Wednesday on the funeral train from Covington, and laid in state throughout the afternoon and evening in the parlors of the Capitol hotel. There were floral tributes, elegant in design, from all parts of Kentucky, and many beautiful designs from persons living beyond the borders of Kentucky.

CASH COUPONS A BIG SUCCESS.

Dedrick Bros' Honest Advertisements Bring Big Returns.

The coupon plan in connection with our large advertisement has caused so much comment that a few words regarding it seems necessary.

Tuesday we advertised 28 cent oranges for 13 cents, with a coupon clipped from The Gazette. Some competitors and others expressed the opinion that we were giving out low priced oranges. Some thought they could buy the oranges for 13 cents without the coupons. All were wrong. We gave regular 28 cent oranges, such as nearly every store in the city, sells for 25 cents. We can't afford to "fool" our customers. We are after friends and increased patronage. We are getting them through our methods of straight dealing, absolutely honest representations, and low cash prices.

When we advertise an article you can depend exactly on what we say. We can't afford to misrepresent, and our customers appreciate the fact that we do not.

We received eighty-nine coupons which means that we sold eighty-nine twenty-three cents oranges, besides lots of others which people thought were low at our regular prices. Our stock of 28 cent oranges ran out and we put our 28 cent oranges in their place. Did we fool our customers? Ask them.

Every dozen we let go with the coupon made us a friend. That's what we are after.

We want to create new interest in our ads. We want you to read them. This is why we give the coupons. This is why it is absolutely necessary that you cut out the coupons and bring them in. The coupons are worth as much as the cash on the days we mention.

Today and tomorrow we give you a 10 cent coupon on pickles. Read our large ad.

Twentieth Century Air Valve

A valuable article for steam heated houses. It is guaranteed to exhaust the steam vapor from the boiler fast as it generates and allows its circulation freely in to the radiators. These air valves are so constructed (as you will notice by the cut) that the slightest degree of heat will automatically open the valve and expel the cold air. When the fire is low the valve closes and prevents back suction of cold air into the pipes. The valve can be seen in operation, costs but \$1.50, and will save its cost in one season.

A HEAVY DOWN-POUR DID MUCH DAMAGE

LOW LANDS ARE FLOODED AND STREETS WASHED OUT.

Low Places in Spring Brook Addition Are Covered with Water, as Also Hundreds of Acres of Farming Country—Ice Gorges Formed at the Bridges.

One of the hardest rains in years set in last evening at 10 o'clock and until well past midnight a hard down pour continued.

During the night the river registered a rise of three feet and in different portions of the city much damage resulted. Streets were badly torn up in places and it will take many loads of gravel and considerable labor to replace the thoroughfare in proper condition.

In the Spring Brook addition, south of Buob's brewery, several acres of land are under water. During the early hours of the morning the water in the small creeks overflowed the banks and flooded the surrounding low territory near the corner of Eastern avenue and the Beloit road.

This morning the street cars found hard work in reaching Main street, being obliged to run through deep water that overflowed the street on both sides of the Spring Brook bridge.

In the town of Harmony several large ponds formed on several of the main roads to a depth that made traveling dangerous.

On this account many farmers were obliged to drive many miles out of the city. Hundreds of acres of farm lands in Rock county are under water.

Large blocks of ice lodged with a crash against the Fourth avenue bridge this morning. The swift current sent these ice blocks with considerable force which made the Fourth avenue structure tremble from one end to the other.

Against the Milwaukee street bridge considerable ice is now blocked. No damage has as yet been done and none is anticipated.

In speaking of the rain last evening John Watson said: "I never saw Rock river go as high in one night's time and I have lived here a good many years. It registered an increase of about three feet. That rate is a rapid one for Rock river."

Dr. William Horne said: "Not in four years has the river gone so high in one night's time. I don't anticipate any damage this spring as there is practically no snow."

The weather prediction for tonight and tomorrow is, "severe cold wave with Northwest gale."

REVIEW THE WORK OF THE PAST YEAR

ANNUAL HOME GATHERING OF CONGREGATIONAL CHURCH.

Reports Show That the Affairs Are in a Flourishing Condition, and the Ledger is Free of Debt Charges—Supper To Be Served Tonight, and Reports Read.

At the Congregational church this afternoon was held the fifty-fifth annual meeting of the church.

The program began in the Sunday school rooms and parlors at 3 o'clock. The reports of the secretaries of the Young People's Missionary and King's Daughters Circles were received.

This evening supper will be served in the church parlors to commence at 5:30 o'clock. The reports of Miss Susie Jeffrie, treasurer, and Miss Gertrude Cobb, librarian, will also be read as will the report of J. M. Whitehead, clerk. Mr. Whitehead's report shows a total church membership of 451. During the year 1899 a total of forty-one new members were admitted. The number of deaths during the year was eight and the number of dismissions eighteen, making a total loss of twenty six for the year 1899.

The church and the society are free from debt.

Dr. R. C. Denison assumed charge as pastor in February 1897. During his three years service about \$8,000 has been expended on the church in the way of exterior and interior repairs and other improvements. The trustees spent on exterior repairs during the year 1898 99 over \$900, and on interior decorations about \$1200 making a general expense of about \$1,000 a year aside from the regular running expenses which are about \$3,000 a year.

Rev. Mr. Denison has worked hard in the interest of the church and to him much of the credit belongs for the present excellent condition of affairs.

JANESVILLE'S FAMOUS PARTY

The Boston Journal Speaks of the Recent Progressive Dinner.

The Boston Journal makes the following reference to a recent Janesville social affair:

In Janesville, the "best people" are fond of course dinners. We quote from a Milwaukee newspaper: "At a recent dinner of six courses, in honor of a bride and groom, one course was served at each of six houses. The first house the party of sixteen ate some oysters, put on their wraps and started for the soup house, half a mile away. After they were filled with soup and conversation, they went to the fish place, and so on to the end."

Would not this form of entertainment lighten the winter gloom of Boston? Oysters, or grape fruit might be partaken at a house, say in Brimmer street. A climb up Mt. Vernon street might be rewarded by soup and sherry. Fish and a white wine would be found in Chestnut. An entree would be worth the trip to Beacon, and then champagne would begin to flow. Saddle of mutton would be served in Malborough; more champagne. Roman Punch would lure the party to Bay State Road. And they that could then find the way to Chestnut Hill would secure the prize woodcock or whatever game might be in season, and Bergundy. There would be no need of desert, coffee, cordials or postprandial Scotch and soda.

A Tale of a Turkey.

From the Swan City (Iowa) Herald: Along in the night a large turkey climbed from the ridge of the roof on Ole Peterson's house to the top of the chimney and sat down, so as to get the benefit of the heat from the fire below. Early in the morning Mrs. Peterson and two children sleeping in the room where the bird sat were awakened by the sound of the bird's wings as it was being driven off, but it took quite a while for the sick to recover.

JOHN G. REXFORD BUYS PAVING BONDS

Cashier of the First National Bank Pays the Sum of \$1292.75 With Premium.

Mayor Victor F. Richardson has disposed of the West Milwaukee street paving bonds to John G. Rexford, cashier of the First National Bank. Mr. Rexford pays a premium of \$30.14 for a total of \$1292.75 valuation of bonds.

These bonds were issued by the City of Janesville against the property owners on West Milwaukee street who did not elect to pay the cash on the special paving assessment. The bonds draw six per cent interest and are five year bonds.

Mayor Richardson was authorized at the last meeting of the council to dispose of these bonds to the highest bidder.

The \$30.14 premium is credited to the bond issue so that it practically makes a five per cent interest rate.

A DOCTOR WHO CURES.

It is thought to be beyond dispute that a celebrated Chicago physician, Dr. N. E. Wood, has the most extensive practice in treating chronic and nervous diseases of any physician in the United States.

Not only is he constantly occupied as President and Chief of the faculty of the great Chicago Medical and Surgical Institute, but he has several trained assistants who are equally busy in attending to his practice, which extends into almost every state and territory.

How Dr. Wood obtained his enormous practice our readers will be interested to learn. When a medical student, in addition to the usual course of lectures and study, he received private and special instruction in the diagnosis and treatment of a class of diseases which are usually neglected in the courses prescribed by all American medical colleges.

He became convinced that this important class of diseases did not receive the attention deserved from the medical profession, and he decided upon a course which would enable him to study these diseases closely and accurately. He kept a most careful record of every case he treated of which there were thousands every year. He had case books printed for his special use, containing cuts of the human figure, upon which the various lesions and symptoms were carefully located. These proved very valuable. He was constantly on the alert for new facts, which were always carefully and accurately recorded.

The treatment which he employed in each case was also carefully recorded and a tabulated record of the results of treatment kept. In this way nothing could be forgotten, and the results were that he discovered new and most valuable methods of treating diseases of this character.

After thus carefully and scientifically investigating the most favorable means of combating diseases in the largest hospitals of America, Dr. Wood extended his research to the medical centers of Europe, visiting in turn the hospitals of London, Paris, Berlin, Vienna and Heidelberg, taking every advantage of the wonderful facilities for acquiring accurate knowledge in the treatment of a much neglected class of diseased conditions, to which he has since given his undivided attention.

In the Dissecting Room.

In Germany he made an arrangement with a large college hospital which enabled him to dissect a great many subjects, which fortunately included the cadavers of many persons who had died from the effects of various chronic and nervous diseases.

While thus engaged in scientifically investigating the cause of disease, his efforts were rewarded by the discovery, which has been a boon to the human race, the ulterior cause of some of the most distressing diseases which afflict mankind.

The cause found, the means of relief was not difficult. He returned to America, perfected his system of treatment and at once began to demonstrate that he had really made a great discovery, and subsequent years of practice has confirmed and proven it a priceless blessing to mankind.

Dr. Wood is evidently an originator as well as a thorough student and indefatigable worker. His extensive correspondence and practice are reduced to a perfect system. It is a mystery to many how he can attend to his numerous patients.

In his office are filed over one hundred volumes filled with records of cases which he has treated, and some of them contain hundreds of pages. He also has a large number of remarkable testimonials, from bankers, ministers, lawyers, railway managers, editors, physicians, governors, congressmen and others in almost every walk of life.

The celebrated Prof. Thompson of London, speaking of Dr. Wood, says: "He is a man of indomitable energy, keen perception and tenacity of purpose, and natural ability to accomplish any object he may undertake, who would be found in the front rank of any profession; being possessed of that peculiar talent which enables him to obtain immediate mastery over the most perplexing medical problems. He has the faculty of pleasing and inspiring his patients in the most remarkable manner. I have seen hundreds of persons consult him, who were at death's door with some terrible disease, come from his presence full of life, confidence and joy, and in every way feeling better, who improved from that hour. What he does to these dying sufferers I can not tell. He certainly cures them and charms them in a remarkable way. He does not undertake any incurable cases, but gives life and hope and health to thousands given up to die."—Chicago Journal.

Peanut Butter.

According to a prominent dealer, peanut butter is rapidly becoming an important commercial product. It is made by grinding peanuts very fine and reducing the mass to a paste, from which a large part of the oil is removed. A little salt is then added. Many physicians recognize the nutritious value of this butter. It has all the wholesome qualities of nuts without being so indigestible. Peanut butter is excellent for the poor, too, for it contains quite as much nourishment as ordinary butter and is much less expensive.

Where Smoking Is a Crime.

It is curious to find that there is a country in the world in which it is considered a crime to smoke. Abyssinia is the region, and the law forbidding tobacco dates from the year 1642. It was at first merely intended to prevent priests from smoking in the churches, but it was taken too literally and nowadays even foreigners have to smoke sub rosa as if they were still schoolboys.

Shinbones Eight Feet Thick.

We wear away two inches of shoe leather in a year. A pair of shoes that would "last a lifetime" would, consequently, have to be provided with soles from eight to nine feet thick.

PRINCE OF MONACO.

Has Made Good Terms for Himself with the Casino Company.

Ten years have elapsed since Prince Albert ascended the throne of the Grimaldi amid a pageant which recalled the middle ages, says the Gentleman's Magazine. The reigning sovereign, who is 51 years old, was educated as a naval officer, and has served in both the Spanish and French navies, taking part in the Franco-Prussian war of 1870. In England he is known for his papers on oceanography; in France he has lately made himself conspicuous for his letter to Mme. Dreyfus; at home he is regarded as a very shrewd man of business who has made excellent terms for himself with the Casino company. So far the most important event of his reign has been the renewal of M. Blanc's original concession, which would have expired in 1913, for a further period of fifty years from that date. This new privilege will have cost from first to last a million sterling in hard cash paid to the prince; an annuity rising every ten years, till it will reach £100,000 in the last decade; a new opera house, to cost £80,000, and, as a recognition of the artistic tastes of the prince, a sum of £1,000 for each of ten special representations at the theater. He also receives, as may be seen from the balance sheet of the company for last year, an additional grant of £20,000 for his law courts, police and army of seventy-five men and is also a large shareholder in the concern. Besides all this, the Casino pays for public works and roads, lighting, the water supply, the official wash house, the state baths and the loss on the postoffice, while, true to the religious character of Monaco, it gives grants to the bishop, the clergy and the convents. In short, the contemporary history of Monaco is simply that of the Casino and the descendant of the Grimaldi is that very modern product—the aristocratic financier.

Favors Local Option.

Columbus, Ohio, Feb. 8.—The house passed the Clark local option bill by a good majority. The bill provides that wards, municipalities or counties may vote on local option every two years and its passage by the house is regarded as a triumph by the W. C. T. U. and other temperance organizations.

Millions for Snowsheds.

Thirty-two miles of snowsheds, costing \$661 a foot, or a total of \$10,813,440, represents the price one transcontinental railway had to pay before it could run its trains over the Rocky mountain division of its road. That was merely the first cost; since that outlay fully \$1,000,000 has been spent annually in keeping the sheds in repair and the exposed tracks free from snow.

A Detailed Map of Rock County . . .

Work is now in progress on a new wall map for Rock County. In size it will be 42x47 inches, mounted on cloth, and each township (of which there are twenty) will be neatly colored. The county will be represented on the scale of 1 1/2 inches to the mile and will show the location of streams, lakes, cities, villages, school houses, churches, town houses and residences, public roads and railroads. It will also locate the farms, giving the number of acres and the name of the present owners wherever it is possible to do so. As fast as the drawings of the townships are completed they are verified so that the map will be as nearly correct as possible. The work will be of great value to business and professional men and farmers, and should find place in every school house in the county. The last wall map of the county was made a great many years ago, so that this new one will fill a long felt want.
